

Task Management System – ERP UI Requirements Document

1. User Roles & Access Control

1.1 Task Creation Authority

Following roles will have permission to create tasks:

- Super Admin
 - Admin
 - MIS Admin
 - Department Admin
-

1.2 Task View Authority

Role	Access Level
Super Admin	View all tasks (all departments)
Admin	View all tasks (all departments)
MIS Admin	View all tasks (all departments)
Department Admin	View tasks of own department only
Member/User	View only assigned tasks

2. Dashboard (Home Screen)

Objective:

Provide a quick overview of tasks, priorities, and performance.

Components:

- Total Tasks (Assigned / Completed / Pending / Overdue)
- Today's Tasks
- Upcoming Deadlines
- Priority-wise Distribution (High / Medium / Low)
- Team Performance Snapshot

UI Guidelines:

- Card-based layout
 - Visual indicators (color coding):
 - Red: Overdue
 - Yellow: Pending
 - Green: Completed
-

3. Task List View (Primary Workspace)

Objective:

Main working interface for task tracking and updates.

View Modes:

- List View (Default)
- Kanban Board (To Do / In Progress / Done)
- Calendar View (Deadline-based tracking)

Task Columns:

- Task Title
- Assigned To
- Created By

Functional Requirements:

- Search functionality
- Filters:
 - Date
 - Assigned user
 - Status
 - Priority

- Task Type
-

4. Task Creation Form

Objective:

Enable quick and structured task creation.

Fields:

- Task Title (Mandatory)
- Description
- Assign To (Single / Multiple Users)
- Due Date & Time
- Priority (High / Medium / Low)
- Task Type (Mandatory)
- Attachment Upload (e.g., docs, drawing)
- Reminder Toggle

Special Feature:

- **Save & Lock Mechanism**
 - Once task is created, it cannot be edited
 - Only status updates and comments allowed
-

5. Task Detail Page

Objective:

Provide complete visibility and interaction on a specific task.

Components:

- Full Task Details
- Comments / Discussion Thread
- Activity Log (audit trail of all actions)
- Attachments
- Status Action Buttons:

- Start
 - Complete
 - Hold
-

6. Notifications & Alerts

Objective:

Ensure timely task completion and follow-ups.

Features:

- Email Notifications (for task assignment and reminders)
 - Overdue Alerts (highlighted in red)
-

7. Role-Based Functionality

Admin-Level Users:

- Create tasks
- View all tasks
- Monitor performance
- Access reports

Members/Users:

- View assigned tasks only
 - Update task status
 - Add comments
-

8. Reports & Analytics

Objective:

Provide performance insights for management.

Reports:

- Employee-wise Task Completion
- Delay / Overdue Report

- Task Type Performance (Efficiency)
- Daily / Weekly Productivity

Export Options:

- Excel
- PDF
